

With honor and sadness I appeal to you. What happened here is wrong. It is using government polices and the law and courts to do what they knew in their hearts was evil. My name is Arthur Wood, I am a senior citizen. I and my family suffered for 28 years to build a home, to work at my craft, only to be arrested and dragged from my home, abused and denied even a trial. The department of buildings and even the Red Cross denied us shelter. I went to war for this country and was trained to be an engineer. After training my company of 100 men were sent by air to California on two flights. On Monday A-M when on Tuesday N-Z. On Monday 50 men died in a crash. I know them, on Tuesday as we entered the second air craft I looked at the smoldering wreckage of the first , I did not want to go. In the army as in life one cannot say no. Today I am in a politically controlled environment fighting foreclosure fraud amounting to 4 million dollars of evil. I have presented overwhelming evidence, why are they not arrested? On January 30th, 2010 my wife who stood beside me for 55 years died, her death hastened by this oppression. She is here as I promised she would be. Thank you.
